Nursing Program Enrollment

Enrollment is defined as the number of undergraduate RN and LPN pre-licensure students who were accepted into the nursing major and enrolled in nursing courses. Enrollment numbers were reported as of the institution's official fall reporting date. Public nursing schools used the date of the fall census data extract; private schools used the IPEDS reporting date of October 15. The reporting period was defined as October 1, 2012 through September 30, 2013, or "Fall 2012, Spring 2013, Summer 2013".

Full-time students were those enrolled in 12 or more semester credits, and part-time students were those enrolled in fewer than 12 semester credits. New students were those enrolled for the first time in the nursing program during the reporting period, and continuing students were those enrolled in the nursing program at all other points of the program's curriculum sequence.

Enrollment in Programs Leading to RN Licensure

Baccalaureate Degree

Baccalaureate degree programs had a total of 1,152 nursing students enrolled in 2013 as reflected in the table below. Included in the total enrollment were new students and continuing students. Data reflected an increase of approximately 10% in baccalaureate degree enrollment since 2012 (compared to a slight decrease in enrollment from 2011 to 2012).

Total Student Enrollment in Nursing Education Programs

As reported earlier in this report and as depicted in the figure and table below, total new and continuing student enrollment in South Dakota's baccalaureate nursing education programs increased in 2013. Total student enrollment for associate nursing education programs decreased. In addition, enrollment in practical nursing programs slightly increased in the past year.

In 2012 there was a total of 1,160 new practical, associate, and baccalaureate students and 1,041 continuing students for a total of 2,201; compared to 1,160 new students and 1,159 continuing students in 2013, a total of 2,319 students. Data reflected a positive growth in enrollment of 118 students from 2012 to 2013 (an increase of approximately 6%).

Nursing Education Faculty

Employment Status

Faculty counted as full-time were those included as instructional, administrative, or research staff of the nursing program who were employed full-time as defined by the institution, held academic rank, carried the full scope of faculty responsibility (e.g., teaching, advisement, committee work), and received the rights and privileges associated with full-time employment.

Part-time faculty were those members of the instructional, administrative, or research staff of the nursing academic unit who are employed part-time as defined by the institution, may or may not hold academic rank, carry responsibility for a specific area (e.g., teaching a single course), and may carry any number of titles (e.g., adjunct, clinical instructor).

Also included were administrative, LOA/Sabbatical, and persons employed to teach nursing theory, clinical practice, and/or lab. Those not included were substitute teachers, guest lecturers, or faculty for graduate programs.
